1 or 2 persons**

Visiotech Nordic a/s

Great News!

A smart solution tent for 1 or 2 people who want an easy and comfortable way to spend the night outdoors. This product can be used in many places, including Festival; the advantage is that you lie on a sofa bed with contact to the ground.

You are very comfortable on the air mattress that fits perfectly with this tent. A new and unique invention that will certainly make huge inroads in the market next year.
